## DETAILED ACTION

### *Drawings*

1. This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

### *Claim Rejections - 35 U.S.C. § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Clack et al patent 5,876,610.

Clack et al disclose water purification device 58 or 60, with flow meter sensing assembly 74 optionally being in any orientation or upstream or downstream of the device(s) as required in claims 1-4, 9-12, 18 and 19 (column 7, lines 1-33), an electronic control/indicating assembly 76 being operative to display a plurality of parameters related to cumulative flow through the filters, and cumulative time as assisted by a timing circuit as recited in claims 5-7 and 11-13 (column 4, lines 35-44, etc.), an electric input device (column 13, lines 4-30), a cumulative flow and/or

time of operation valve flow regulating device as required by claims 17 and 20 (column 15, lines 28-30) and an alerting device 168 as required by instant claims 8 and 16.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hsu patent 5,865,991 and Silverman et al patent 5,540,107 also teach dispensing systems in which cumulative flow volumes and time of dispensing and of flow through filters upstream of dispensing mechanisms are monitored by microprocessors which display an array of datum and control flow regulating devices.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph W. Drodge whose telephone number is (703) 308-0403. The examiner can normally be reached on Monday-Friday from approximately 8:30 AM - 4:45 PM.

The fax phone number for this Group is (703) 305-3599. When filing a FAX in Tech Center 1700, please indicate in the Header (upper right) "Official" for papers that are to be entered into the file, and "Unofficial" for draft documents and other communication with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0661.
